

Project_2 - Final Output

HeYa.

HeYa.

I am an Software Developer. I'm the student at IIT Madras and SRM University. I ❤️ coding and reading books.

My Skills.

Design & Development

I started learning to code when I entered college because I wanted to make my own blog and experiment with webpages. Over time, I have gained a lot of experience in designing and developing web applications.

Books Challenge

I love reading books and working out, one keeps me healthy and other busy. Sapiens and Captivate are my favourite ones, do give them a read if you have time.

Get In Touch

If you love books,gym and maybe have some work.

Maybe I can tell you about Sherlock Holmes? Let's talk about how awesome he is! We can code while we talk!
